Description:

Manga University uses original comic artwork to teach readers how to identify and write the most common Japanese kanji ideographs. The third volume in the series features 80 kanji that students in Japan learn by the time they have completed the sixth grade.

These little books are a fun way to learn basic kanji. Each entry consists of a single page with one to four manga (or comic strip) panels. The dialog is completely in kana (hiragana and katakana, which are phonetic Japanese characters) except for the featured kanji character, which usually appears a couple of times. There are English translations below, but no romanji (English characters). And, the translations are not word for word. So, unless you read kana fluently and already understand a little Japanese, these books won't be of much use to you. They do have a Kana de Manga book, which might be a better place to start, although I have not read it myself.
